

A man was admitted to the office of the secretary of an organization founded and dedicated to the task of helping man help himself. This organization develops, correlates and disseminates information gathered from the very source of the cry for help; man, himself.

This man who came to see the secretary was an important part of the local community, a doctor. He was obviously and directly skeptical. His questions were common ones. How many members? What is the purpose? How do you make a living? His questions were answered simply and directly and he seemed satisfied with the answers and the picture of the organization that was growing in his mind as a result of the questions and answers.

Then came a question which the answer to startled him. He sat back in his seat, got a distant look in his eyes and was silent for a few moments. He looked at the secretary and said quietly, "I see", thank you, and he got up and left.

It has been established that three people somewhat unrelated from different parts of the country had met in a distant large city and together had had a vision, if you can call it that, of a way to help people. They had traveled from this distant city to a small community. Here they had established themselves, written a charter and formed a non-profit organization. They had had help, but basically they were still only three. Then they put an announcement in the local paper, describing some of their beliefs and one by one the members were drawn in. They had different backgrounds and were from different parts of the country, each filling a need and finding a need fulfilled until there was a corps of twelve. From here the organization has grown to what it is.

The man's question was something like this. "How could three people come to a strange area and set up something like this? How could they know they would find compatible associates?". The secretary answered, "Well Doctor, the answer to that is a much mis-used and misunderstood word, its called faith."

\*\*\*\*\*

Last month we presented five questions for you to look over. Have you done so? Did you discover anything new about yourself? Here are a few more questions. Try them many times.

What do you value?

Have you ever changed a habit? If so, what did you learn from the change?

What is freedom?

What is freedom from?

Is there a difference between tensions and emotions?

## Michael Speaks!

On a summer evening, the description of which would rival the sometime exaggerated delineation of poet's pen or touch of artist's brush, the diurnal luminary was just hiding himself behind a cloud as he sunk toward the western verge. As beneath the vapory curtain he gradually disappeared from my vision, and with his solar radiations pencilled, in gorgeously decorative hues, heaven's fleecy drapery, while veiling himself as if the symbol of the high priest of the Order of Melchizedek, with this drapery separating the holiest from penetration of human eye, my mind sought to gaze beyond the veil, into that mystic height and depth which seemed obscured within the orb, by the dazzling brilliancy of his regal splendor.

As I mused upon what might be reserved of God's inmost secrets, and perhaps suspended within the solar sphere to be revealed to man through subsequent ages of human evolution, I was seized with an almost super-human longing to know something of the mystery of Godliness to which I knew I must be royal heir by divine inheritance.

"Is it possible," I thought to myself, "that man, who it is claimed was created in the image and likeness of God, who occupies the tabernacle of God's visible presence, must be shut out from the observations of things he wishes to know, and to which he is rightful heir by virtue of his divine parentage and origin? Must he forever search in vain for the secrets of immortality, which seem thus far to lie obscurely veiled by the dark cloud of human ignorance? Is God a myth? Or is that bright orb the window through which the divine and overshadowing One perceives all of his handiwork? Are the solar beams, lighting and warming into animation all stellar and terrestrial things, but the visual energies of the All-Seeing, as he looks through this bright opening behind which he himself forever dwells?"

These thoughts passed rapidly through my actively exercised thinking equipment, when all of a sudden I found myself apparently flying through space almost with the velocity of lightening.

At first I was greatly alarmed; then I said, "This is but the response of my intensified aspiration, breathed out as the prayer of my soul's yearnings for the possession of the occult things of being, and in answer to those inner breathings, God has had compassion, and I am being transitted to the central throne of his divine majesty, to behold with the veil the mystic things of life." And as I moved the more swiftly, I seemed the more to enter into the ecstatic realm of the delightful consciousness of some coming revelation.

(to be continued.....)

by EBP

Marcap Council, Inc.  
The Center of Awareness  
Route 3, Box 400, Fort Myers, Fla.

Dear Friend,

This is the third and last letter of a series of three which were evident in the second letter, when I promised that I would notify you as soon as we knew where we would move to. Well, now I can.

Marcap Council will move before June, to the following address:

Marcap Council, Inc.  
Cool Spring Acres, Lake Rabun (pronounced: Ray-bun.)  
Lakemont, Georgia.

We have found our new home, and all arrangements are made which can be made for now. Our new place will be 11 acres with many springs as the name indicates, and it is to be developed as a Planetary Headquarters for the operations of Marcap.

Arrangements are being made for this summer, for those who wish to come to engage in a program which will be announced shortly, to be housed at nearby places at minimum rates, making it possible to have a vacation and spiritual development work for the average cost of a vacation. (This has been a long time goal of ours, to offer our help, without tremendous costs, and now, it can be done.)

As soon as we are moved, our first rammed earth building will be started, and we are going to have everything ready before we have a winter upon us.

This is the start of our Community, where others can come, build their own housing units, or bring in trailers, or whatever serves them best. The dedicated people who will come to our Community will participate in all things with us, and together we will go on to the heights imagined by man, but never quite reached. We know the Way, and can tell you this undauntedly.

If you wish information, just write. We will be most happy to set things up so that we can begin our summer schedule without delay, for facilities are available.

After our move, we will have some very startling information to pass on to you, I am sure you will agree when you hear all about it. More news will break in our Marcap Dispatch, so don't fail to get your subscription in.

This is all for now, but isn't it great?

Fraternally yours,  
E. Blanché Pritchett

NEWS

During this past month news has been received from Miami that the Scientology, Fla. group are embarking on a new course taught by Vern Johnson. We understand that the new course is resulting from a Clinical Course taught earlier this year in Washington D.C., and which Vern will pattern his new course after. In receiving this news Dr. Blanche commented: "The best we can wish for them is that they achieve as much from it, as we are achieving in our work here."

The members of Marcap Council send their greetings and best wishes to the members of Scientology Florida, for whom we have much affinity. Three group intensives which were given to the Scientology Florida group in 1960 established good understanding between the members of Marcap Council and the Scientology Fla. members. Dr. Blanche who gave the intensives, assisted by Dr. Wm. Lapp and Vern Johnson has stated that she had never seen more beautiful productions than were products of the cooperative procedures used. Those procedures are now copywritten and are the property of E. Blanche Pritchett, Founder. To date: 100% good results have been obtained with the use of these procedures with over 200 people of all ages and of all educational backgrounds.

The members of Scientology Florida have had an open invitation to visit at Thetan Place, and this invitation is extended to our new home.

Our best to each of you down there in Miami!

XXXXXXXXXXXXXXXXXXXX

Within the past two months there have been several requests for a course in Divine Healing, and the Board of Directors of Marcap Council are considering this seriously, mainly because of the mis-conception usually associated with Divine Healing. In the opinion of the Directors, all healing could be said to be "Divine", it is the understanding of this that can truly be taught with benefits.

XXXXXXXXXXXXXXXXXXXX

Plans for a Convention are being considered by the Directors of Marcap. It is said that this summer, at our new location, with seminars and lectures...and a few surprises..... is in the making.

XXXXXXXXXXXXXXXXXXXX

An "End of Course". "End of Cycle" party is being planned after the P.D.C. course ends on May 5th. The party will be a farewell to Fort Myers party also. You will be advised of the dates, and if you can.....COME!

XXXXXXXXXXXXXXXXXXXX

News

Two Saturday afternoon and evening "sessions" or conferences have been held during this past month with Harry Manley and Dr. Albert Piscatello.

Harry Manley who is closely associated to Marcap and one who is in constant communication with Dr. Blanche, has had Dr. Piscatello visiting him since shortly after Easter. These two cherished friends of the Council have had a desire to draw themselves closer in to the Nucleus, and have managed to effect this with ease. The general discussions have been enlightening to all, and the camaraderie between our visitors and other of the Group at Marcap Council headquarters is very high.

Harry Manley, whom you may recall wrote an article entitled "The Absolute Difference" which appeared in the April Dispatch, has been dedicated to his work for many years, and has sought fraternity in every way that can be imagined. We truly consider that he has found it.....and we hasten to add.....so have we!

Memberships are growing, and so are subscriptions. Memberships will soon be given opportunities for participation which have never been equalled, quality-wise, and finance-wise. If you are already a member, you will soon see that you are to be rewarded for having applied before the new offerings are made available. And...we do hope that you know how much we appreciate your support. Without your help, we could not have grown as we have. Thank you!

The week of April 25 brings some new friends from a great distance to collaborate with the Drs. Pritchett and Lapp, and to also hold a communal meeting with others who are in residence and attend classes. More news on this later.

Marcap Council will give it's final farewell party, and "end of class" party on Saturday evening May 6th. Dancing, games, and good social participation will be the general theme of the party. We are all looking forward to this event with much enthusiasm. If you are within driving distance, and would like to come, please feel free to drop us a card before May 5th so that we know how many to prepare for. This notice is your invitation, though there will be other invitations sent out, and you will probably receive one.

And, now.....we wonder.....have you written us lately. If not....why not ???????

NEWS

(continued)

Since the last issue of the Dispatch, over 400 letters have been received, and all of them, highly interesting. Due to the shortage of space, and the difficulty in selecting quotes, we are dispensing with the mail news this month. Suffice is to say that interest is high, and commentary on our move to the Mountains is varied. (Just like we knew it would be).

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

Marcap Council and its members wish to extend Condolences to Col. and Mrs. Arthur J. Burks in the passing of Mrs. Burks mother, this past month, at their home in Paradise, Lancaster Co. Penna.

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

News from Alpha Hart, Editor of the Aberree, published at Enid Okla. Alpha will go to confer with Col. Arthur Burks on April 10th when Col. Burks addresses a group known as "Horizons Unlimited" in Oklahoma City. (Wish we were going to be there too.)

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

Expressions of enthusiasm have been received from Dr. Mahdah Love and Dr. Alberta Elliott who have already visited the new location of the Marcap Council (more than we have done, yet), and say it is one of the loveliest places at Lake Rabun. WE ARE SURE glad to have that news, and at this time, the Council sends its thanks to Mahdah Love for her good help in locating our new home, and her many offers of help. We are sure we are going to have the best neighbors that anyone ever had.

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

April is the first Anniversary of the meeting of some of the present members and residents and staff of Marcap. The following came to us one year ago, and are now as much a part of Marcap as can be.....Lois and Ed O'Neal, Mable and Patsy Wiggins, who began their class work in April, and moved into residence the first of June last year. Helen Swanson, who is a member of the Advisory Council, and has attended the classes regularly, but who lives in a quiet, and lovely section of the beautiful Island called Fort Myers Beach. We kiddingly refer to their "first birthday." These are some of the people who are really doing a great job.....for themselves, and for YOU!

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

We send our love and best wishes to Carolyn Judkins who has been having a bout with a "Virus". We are betting on Carolyn.....and hoping to see her again soon.

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

This isn't all of the news, but it is the best we can do for now. Hope you find something of interest here, and that you will continue in your good thoughts of Marcap, and its new programming which will shortly be announced with definition.

That's all, folks!

## TECHNICALLY SPEAKING

By: Richard Pritchett, Director of Training

Most of the material given in this column to date has been Theoretical, but, of course, this thought has been intentional, so here is some more! Ideas or theory always precede practice. Anything you know or understand derives its origin in an idea, or the planning stage. Ideas, thought, and imagination are that part of life man plays with prior to and with creating. It may seem impossible for one to separate ideas from mass or energy but it is done daily at the Academy and Processing Center here at Marcap.

This does not mean we advocate all is thought as some past schools of thought indicate. It does mean, though, that ideas and not matter are senior in causation and in creation to Space, Energy, and even Time.

The basic assumption in our theory is a theoretical term we call "Potential Ability." In the strictest sense "Potential Ability" is just an abstraction; an idea; it has no position in space, it is not an energy, it is not in any time stream of events. One might imagine this as a static - a no thing; but that would leave the play of ideas out, and that is part of "Potential Ability" - it has ideas, it changes its ideas, it causes new ideas to jell, and all of these conditions are possible because of the idea that life is basically an idea which can change its own ideas or not change its ideas upon its own willing decision. Decisions are also Ideas.

Now we could argue and speculate for an eternity about our basic assumption, however, for our purposes here at the Academy the above is sufficient to produce measurable changes in human behavior. Also this is so utterly simple that it goes unnoticed by man in general. Actually our theory on life is not a new idea, as man's wisdom throughout the entire existence of man has always had one or another of these ideas we are presenting here.

There is something new, though, that has been added, and that is a method of bringing our Theory to life - that is, making it a reality - a reality that can be experienced by any individual or group of individuals in a comparatively short time.

Man can be considered as three distinct parts. Spirit is cause, mind is a sort of way the Spirit connects with an object or mass. The body is a mass of particular design that is solidified into an exact pattern. If we take these three parts individually and observe what they do, we will find that man as a composite of these three can be formulated into a Theory (Idea). Cause, distance, and effect. The Spirit is cause; ideas; the mind is the distance an idea travels (motion) to arrive at an effect, or body.

Now cause or ideas precede any motion, or any no-motion as described above. When cause works or imagines, or plays with ideas there need be no previous something (mass) for it to play with or remember about. This we call Potential Ability. As ideas or thought are not mass, or energy, nor do they necessarily

(continued)

occupy any position in time or space, and when they are completely free, we obtain a concept that has no restrictions, or laws, or restraints. One could call this an infinity of potential ability for there is no thing to stop, start or change in this concept. However, this "potential ability" has the ability to cause a start, a change or a stop of any idea, thought, mind, body, planet or system of planets. Here control is described again in the sense of starting and stopping any thing or concept.

The simplicity of this concept hides from man's detection, for it is a no-thing that can create, control and uncreate and not control any part of infinity. This is the quality of life that regulates all things according to specific laws of creation.

O.K, the spirit causes an idea to persist. The persistence is a picture held in suspension. Now the spirit is capable of viewing that picture it has created and held in suspension. That picture is a mass, it is made of energy - a product of the spirit. It can be measured, sensed, and dispensed with simply by the spirit's decision alone. These pictures and masses created by the spirit are movable - they are mobile let us say. Therefore these pictures can be changed, altered, vanished, hidden, and dissolved by the spirit, started, changed, or stopped by the spirit. These pictures can be any shape, form, or in any position the spirit decides for it or them to be in. Also they can be changed in time, that is, a picture contains an idea of when the spirit made it. This is memory and, please note, the word mind is used here as a description of the above pictures and phenomena and what can be done with them. The mind minds the spirit when the spirit is free. These pictures created by the spirit solidify and form forms and thus bodies and planets and planet systems are considered, at this time, to be the result of Spiritual Cooperative Creation here at Marcap.

Understand, Spirit can be, do, have any thought conceivable, also creates newly any state of beingness, or havingness it so desires. The goal here in the Academy is to rehabilitate the Spirit, for it is the Spirit that causes and controls the mind and body to go into or out of motion, and the mind and body are considered products of the Spirit, so actually our goals are the highest man can achieve in this universe at this time to our knowledge and investigation.

From experience and observation gained through our experiments and investigation into life's problems and the knowledge we now possess here at Marcap Council, we have devised methods to rehabilitate the potential abilities of the Spirit. These methods we call drills, processes and sessions. When applied, these methods of spiritual exercises, increase a person's ability to have and to create a higher, happier, and more intelligent life. With life understood, one lives better, controls better, and life becomes more enjoyable. We do not address physical conditions or illnesses, however, these conditions cease to exist as sort of an extra bonus, when man reaches a state of beingness we call here at Marcap "Spiritual Release."

**NO CHANGE!**

By: **E. Blanche Pritchett Ph.D**

Have YOU ever seen an attitude? No, really, now, I mean it, have you ever seen an attitude?

Have you ever seen an opinion? Really seen an opinion?

Of course these are silly questions and they are never answered with "Buts".

"No, I've never seen an attitude or an opinion....BUT, I have seen them expressed.....," they'll tell you.

Here is what you can tell them. (In your own way, using your own descriptive words, etc.)

Something like this: "Attitudes and opinions do not contain mass, for they are not mass, they are not solids, they are not quantitative. Attitudes and opinions are qualities, ideas, and ARE NOT located in space.

One can observe the expression of Attitudes and opinions by the actions which are dramatized....but they cannot observe what the dramatizations are ABOUT. The dramatizations are not the thing, they are about the thing and therefore are always analogous. The thing in this case is an attitude or an opinion, and it is NO thing. (An absolute). Nothing.

This is not a nothingness of attitudes, opinions, trees, or girls, it is: NO thing. Static. Not locatable, measurable, detectable, transmittable or receivable. There is NO thing. There is potential of Things. There is no motion (no thing to move) but there is no motion."

Now that is what You can tell THEM. And you will be describing the truth. (You cannot tell the truth, for the truth is NO THING.)

When we work with individuals in the directions of their goals, the changes they make in the direction of wakefulness (resurrection) are never seen. Only their actions and behaviors can describe what changes they may have made, in the specific areas of change. To look at a person and say: "If that person is a resurrected one, then I do not want to be resurrected.....it is to damn one's-self, for each change in attitude or opinion is entirely an individual matter.

Superstitions or traditions, whether religious, political or commercial lean on: adopted policies. There is no initiative used, there is merely the adoption of policy. And since there is so much adoption, there is agreement, and by this Man considers he MUST have truth. Everybody agrees don't they?

Marcap Council have methods of having a person examine his attitudes and opinions...see if they are appropriate to good living, peaceful living, happiness. If they are not, procedures are used to enable the person himself from adopted ideas, attitudes or opinions. Once free, he can then be in an optimum position to decide newly and to formulate an attitude or opinion.

## Advanced Information Course ends with Comments.

Murcap Council's Advanced Information Course ended on April 11th, with general gains for all participants. The Class was taught by Dr. E. Blanche Pritchett, with Dr. Wm. Lapp assisting. The entire Course was taped by Dr. Lapp, and complete records of participants were made through testing. General gains in Intelligence Quotient ratings, Aptitude, and Emotional factors changed considerably. Full evaluation of all notable gains will be reported in a later issue of the Dispatch.

Of the 14 students who started the course, 12 completed, without absenteeism. The Class was held once a week for 12 weeks.

Comments by some of the students are as follows:

"The necessity of giving direction very carefully and clearly has been impressed upon me in this course. Doing an exercise drives a point home for good. Most of all, this course has shown me that I can concentrate even though others also are talking and making motions, etc. at the same time. I have always been hesitant to do anything "silly", but found that I could. Also, the saying: "Be willing to make mistakes" has been such an unusual statement and so helpful in daring to give an opinion. Recalling unexpressed resentments broke through a gusher all week, but understanding that it was good and relieving, I welcomed it."...Isabelle White.

"The Advanced Information Course taught by Dr. Blanche has given me many new angles to look at in the game of life, as well as: having been a lot of fun. It has helped me to increase my ability to think, concentrate, and has helped me to improve my memory.".....Muriel Farmer.

"I have learned things in this course I may never have encountered in a whole life time and if I had encountered them, it is doubtful I would have recognized them outside of the framework of the class. I am glad I took the course. Thank you.".....Ed O'Neal.

"This Class has been very interesting and beneficial. Viewing together, as a group, the meanings of words seemingly unimportant, yet, if understood have much weight when used in their proper sequences. This is seen in the import of communication with its component parts disclosing the success its application brings in all phases of life. Pan-Determinism, placing man in a higher sphere than Self-Determinism, operating to the highest degree of efficiency. The use, and reason for acknowledgements.

Compositions given us as weekly assignments have helped toward a greater pleasure of living.

(continued on next page)

# Doingness Equals Youth!

by  
Helen Swanson, Tech Sec.

People are young as long as they are doers. When they are willing to sit back in the easy life of a spectator it is a sure sign of approaching old age, regardless of how many years they have spent on earth.

It, through the years, we have gained a sense of values that help to keep things in perspective, being denied things we would like to have, or being prevented from doing the things we desire to do, would not subdue the quality of a youthful spirit, but with maturity the desire and energies are directed in the development of higher attainments.

Set-backs are not so terrible when one has lived long enough to expect reverses and to make allowances for them. And a bad break does not throw him for a terrific loss because life has taught him that things often turn out for the best, no matter how bad they look at the time, for what appears to be a bad break often proves a blessing in disguise.

The imperfections of those he admires do not disillusion him because he has learned not to expect perfection.

He one who continues to be a doer is old. It is only when he relapses into the on-looker class that he knows that the spirit of youth has deserted him.

One is as young as his faith, confidence, enthusiasm and energy. One is as old as his doubts, fears, despair, and love for the easy chair.

Growing old has its compensations if it accompanies growing up.

XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX

## LOVE

by  
E. Pavy's Mathers

Love was before the light began,  
When light is over, Love shall be;  
O warm hand in the grave, O bridge of truth,  
O ivy's tooth  
Eating the green heart of the tree  
Of man!

# What Thetan Place Has Meant To Me!

by

Addison M. Reeder

Well do I recall the first time I saw Thetan Place ablaze with the lights strategically placed about the lawn. I stood in silence filled with awe contemplating the scene before me. Mentally I held it in my hands and felt of it much as a child might a toy that astonishes and astounds him. Inquisitively I peered through its walls to drink in the beauty of her structure. My impression was of a castle, for indeed, her very walls appeared to me, that night, many times the size I have since found them to be.

As I entered the interior, through an aperture, commonly called a door, it seemed I was entering an ancient Cathedral, although I do not think it would have been referred to by that name, I could see many people, mostly men, members of a stately procession which had just returned from somewhere out of doors. They were very solemn with heads bowed. I could almost hear what they were speaking; I say, "Almost" because I cannot define, whether I really heard it or not. It was a condition which I cannot put into words for I could hear, yet, I couldn't. To better state it, I could perceive the whole but not any one part of it.

As I left Thetan Place that nite, she represented to me then, as she does now, an Oriental Lady with drawn veil; shrouded in mystery to the world, yet within her heart is known only to her master. She is often seen, but seldom recognized, often contemplated, never understood. From this it would seem that she is but a symbol, but she is much more than that. She is a living symbol, manifested in present time, embracing all knoweldge. A representative of truth and light, encompassing all things, the rudiments of creation; the keys of time; guardian of the gates of Hercules, the pathway to Nirvana.

Two Things Have Met In Me!

by

J. Zangwill (Israel)

My tongue that hastes to proclaim Thy praise,  
My heart, thy greatness to see and know.  
The angels on high cannot speak of thy glory,  
Then how shall contemptible man tell its story?  
Two things have met in me, one in their ways.
