Dear Fellow-Nexologist:

With the added personnel here at the Foundation, we are finding it easier to get done the work that needs doing. We have been making lots of discoveries which should be transmitted to you now. We're working night and day to get the material ready for you --- plus running students (We use the term "student" to define better our own relationship to those wishing to improve themselves under our guidance), plus answering mail, plus filling orders, plus running the mimeograph and doing collating, and keeping the house in fairly livable order. But, with all of this activity, we are getting more work done to assist you in every way that we possibly can.

The BASIC COURSE IN NEXOLOGY is to be our next publication. It's being written now, and we're working this up into a whingding of a job. It will not be a technical piece of work at all. It is going to be designed strictly for the lay individual who has had no contact at all with our work. It is being presented in a down-to-earth, easy-to-read, loaded-with-examples style.

It will have twenty lessons with lots of self-help questions which will help anyone who uses it to turn on his perceptics, and to develop what he once had as a child -- Eidetic Recall. It is designed for sale to the general public, and will be advertised in national magazines. One of its purposes will be to aid in the establishment of Eidetic Study Groups. We are going to keep track of all the orders, so that anyone who buys any of our publications can be notified of others interested in that vicinity. They can then co-evaluate if they choose to -- or join together with others in the formation of a solid group.

The special, Pre-publication Edition of the BASIC COURSE will contain an EXTRA LESSON on the use of awareness for such things as mind-reading, psychometry, etc.!

Now comes the surprise, and the reason for this letter. We estimate that advertising costs, labor, supplies, etc., will mean this course CANNOT be sold for less than \$15.00. BUT, for all of the people on our mailing list -- our friends, whose support has made this work possible -- we are making a special offer to show our appreciation. Those who wish to may order a Pre-publication Edition for only \$10.00! This is strictly a one-time offer. If you have friends who wish to order copies with you, they may do so if the order is postmarked before October 21, Midnight. Have you had someone in mind whom you feel should become optimum in a very

short time -- this course will more than likely be a wonderful present for them. Or, perhaps some lay person whom you'd like to help -- order a copy for them, also.

To those who have an interest in how "Occult Aspects of Processing" is coming along -- We want very much to maintain the high quality of material that we are presenting. As a result we want to explain the delay in the production of this vital work.

How would you like to live in a world where EVERYTHING you thought was true? How would you tell someone about it? If you described it to them -- if you told them, would they gain the same impression on viewing it themselves? Especially if they had different thoughts? How would you explain the differences? How would you be able to assist the other person to KNOW what was true and what wasn't -- if both of you were seeing the SAME thing?

These are the kinds of problems we are encountering in our attempt to give you the straightest possible information. These are the type of questions on which we are doing research in the attempt to bring you information which is observably true. We are making definite progress with these problems which have baffled and confused investigators for ages. So, please bear with us -- we'll get the information to you as rapidly as possible.

Sincerely,

Jim Welgos
