NOT TO LEAVE THE BASE

NON-EXISTENCE

GOLDEN ERA PRODUCTIONS
COORDINATION COUNCIL

The Gold Coordination Council has recently been revamped and would now like to get out of non-existence.

There are several key * advices which delineate what the Gold Coordination Council is and what it does. Below are the key quotes from these * advices for your information and use.

PER * ADVICE OF MARCH 84

"I can see that a) a CO S must exist and be held responsible for the activities of S and that he have an EC and Advisory Council so that he can work and b) that the CO S should not be subjected to several command channels hitting him with no coordination.

The latter, b) could be solved by forming an upper echelon coordination council above the level of CO S which consisted of a member from each and every unit at S or connected with S which would meet and resolve the orders and projects which were being given to the CO S on a single channel from that coordination council"

"Well, if these individuals were formed into a coordination committee which met regularly and drew up programs and projects for S and gave them to the CO S who, in addition to his other duties, could see that they were carried out and if CMO S existed organizationally as simply another CMO as per continental organization and was administratively handled from Int as all CMOs should be handled, then this coordination committee could use CMO S for its observation and inspection line and keeping track of its programs as a side check to the activities of CO S and his EC and Advisory Council."

"The committee members of course will be mainly interested in S as it related to their own units in giving service and so forth but if the chairman of that committee was WDC S I/C he could also observe stats. This would leave the CO S with his EC and Advisory Council to actually run S."

PER * ADVICE OF MAY 84

"And if the Coordination Council were treated as a sort of Board of Directors who are responsible for the success of an organization we could probably change all this."

The above advices clearly state the purpose and functions of the Gold Coord Council, therefore this is the Council FORM and ONLY command line that will be firmly held into Golden Era Productions. Any other Command lines without full and proper Senior and Junior Danger conditions application are a direct violation of the above.

As stated above and per Gold ED # 1, Attachment #1, CMO S maintains its function of Obs, Execution, Enforcement and Organizing; thus forwarding command intention into Gold.

MEMBERS

THE FOLLOWING ARE THE MEMBERS OF GOLD COORD COUNCIL:

MEMBERS -----	REPRESENTED ORG -----
WDC S I/C - CHAIRMAN	CMO I
WDC S MAA - MAA	
R PJT OPS LOCAL - SECRETARY	
GOLD PGMS OPS CMO I	
WDC S ASST FOR SERVICES	(To be posted per advice HFA by WDC S meanwhile)
INT FIN OPS EXEC - TREASURER	INT FIN OFFICE
S INSPECTOR	RTC
* PERS BP OPS	
CL I/C	CL OFFICE
CL PGMS OPS	
CO HU	HU
CO CMO S	CMO S
CHF OFF EXEC STRATA	EXEC STRATA
D/SNR CS INT PROD	SNR C/S INT OFFICE
R PR S	R PR

FORM AND FUNCTION

In order to fulfill advised org form per the the above, a basket has been set up in all comm centers of all orgs connected with Gold. This is the basket where one would put his programs and projects going to his Coord Council representative in a form per HCO PL 4 SEPT 59 COMPLETED STAFF WORK Pg 123 Vol 0 AND in a format per HCO PL 13 FEB 80R COORDINATION COMMITTEES AND MANAGEMENT COMMITTEES, DIFFERENCES IN PURPOSE AND FUNCTION and HCO PL 9 APRIL 1970 CONFERENCE HATS. The Coordination Council representative as well brings his own proposals and represents all this, AS LAID OUT in the above references.

The GOLD COORDINATION COUNCIL meets 3 times a week in Del Sol Conference room, the time and days are:

- SUNDAY 9:00 PM
- TUESDAY 9:00 PM
- FRIDAY 2:00 AM

that ship is however responsible for the Admiral and his staff. In this case, the Admiral and his staff have a designated officer who is the contact point with the ship and its Captain so as to ensure the quality of service in the named functions"

Services to the Center as delivered by Gold on the previous week are taken up at the Sunday night meetings. Representative members bring with them their Org's service votes per CMO Int ED 1136-1 and -2. At this time proposals on betterment of service to the Center are reviewed, coordinated and passed on for handling.

PER ABOVE QUOTE OF MAY 84

Gold Coord Council maintains an UPPER management responsibility likened to a Board of Directors over Gold. As well it is the coordination point for programs/projects from its representative members in the performance of their management or policing functions over Gold.

"Top management lays down and/or okays policy PROGRAMS and PLANS" (LRH - CBO 51R The Bureaux Team 1970)

This echelon provides strategic planning, evaluations and programs as per the functions of the individual Council members.

The relations and functions of these different units, all part of Int Management and RTC are covered in the Command Channels Chart and Booklet.

The above advices clearly cover the fact that CO Gold and his EC/AC are responsible for the viability and running of Gold. There have been instances in the past where "Coord Council approval" was needed by Gold execs to execute Gold EC/AC decisions and carry out their own responsibilities. This is not the case. Gold EC/AC decisions stay with EC/AC Gold as this is its hat and they are held responsible for their organization, Gold.

COMM LINES

The lines into Gold Coord Council are via your representative as laid out above. The command line into Gold is from the Gold Coord Council to the CO Gold as laid out above and in the Gold Command Chart.

Needed and wanted from management terminals over Gold, such as the various Exec Strata execs and Snr C/S Int Office execs, are they may be coordinated and passed for implementation.

Please let us know what is needed and wanted.
