PAIN-DRUG-HYPNOSIS PART TWO

I am writing this because I am worried. I am worried because it is being rapidly revealed with the running of cases after case, the purposes of Scientology are being inverted; that instead of its being used as a means of freeing the Thetan, it is being prostituted as a medium of enslavement.

I now realize that I have known this below conscious level for a long time. I feel that this is the likely purpose for the original concept of the Second Terminal. But it did not quite reach conscious level until my nose was unbelievably pushed into it by others, with the revelations of the extensive use of vicious PDHs.

A PDH in the hand of an amateur is debilitating, because it keys in past ones, but it is easy to find, and erase. When given by experts, it can without the persons knowledge or consent alter their life pattern, for this life and for future lives. PDHs of this latter nature have been given-- even to those who have but visited a single Congress. They are difficult to find and erase, because of their insidiousness and the many forgetter mechanisms which have been installed. By the present application, the powerful beings who were together in Lemuria, Egypt, Atlantis, and Toleos can, unless these are run out become a slave in the African jungle at the end of a S----B---- whiplash.

The people, the Thetans, who have been attracted by the high order of truths in Scientology are those of the highest THETAN ability potential on this planet. This assemblage can be used for the purposes of highest re-creation, or it can be used for the purpose of deepest retrogression-- all dependent upon whether these people, these Thetans, are able to re-gain and use their full THETA-DETERMINISM. Until you have yours run out, you will be operating on unknowing other-determinism.

I am certain that that which is contained in these pages is important to the future of this section of the galaxy. Should you not elect to run out your PDHs, it is likely that this system will be shrouded in blackness for, perhaps, milleniums to come. I assure you that this is not idle fancy. There is even the implantation that these PDHs are not important. Not so!!!

All of this seems wild, like space opera stuff, science fiction. I am no authority on the latter, as I have read only a couple of them in this lifetime. But we somehow got the idea that such things are something that HAS happened, way out there in space. Ladies and gentlemen space opera and science fiction is something that can happen right here and right now.

In revealing this, I am jeopardizing the physical existence of this body. Those who would enslave are, indeed, dangerous and desperate criminals. Should some "accident" happen to me in the near future, please be assured that it will be no accident. This is not bravery on my part, as the culmination of that which is imminent would be far worse.... and for those whom I have held to be near and dear-- for a long, long time.

Even at this late date, it seems incredible that the offering of these beautiful truths Ron has given us should be thusly tainted. On the one hand we see that just about every enslavement of man has begun as a just and

noble cause. On the other hand, did you ever try to figure out the reasonableness of a past incident? If you did, you probably just got into deeper data and more figure-figure. It is just this way with this present one. They are basically of the same nature. Just as in running an incident, you accept what the meter and what the preclear says, and you have the truth. In this, we have observed, and have the courage and personal integrity to say what we have observed. Yes, Ron, we got the message. It is just that simple.

Is this revelation destructive of Scientology? No. It is just as if we have found a section of a building that has been tunnelled by termites which must be demolished and rebuilt. It is not he who discovered it who is destructive; it is the termites who are destructive.

It is most consoling to know that from now on we can make Scientology that which we know it CAN be, but has not been. It can become a science continent of true freedom of thought and action-- for the marcab, the celicatan and the capraeolacnatan (See issue 29).

Suppose that something should happen to me. I assure you that this work will be carried on, perhaps, just as well. Many copies of the 2nd Terminal mailing addresses have been distributed, some to places not known to Scientologists, or to myself, for example. Scarcely an issue will be missed, but watch out for counterfeits.

When running out PDHs, it is necessary, until good reality is gained, to tell the preclear when the meter drops, and when it does not. If it stops dropping, he is either off of it, or has struck a command to the effect that nothing will effect the needle action.

Everyone run so far has struck the command to take a body in Africa. Those who have applied this have done it without the consent of the person to whom the command has been given. It is utterly inconceivable that such an act-- such a crime could be committed with good intent. There is even the command that they should take the body of a snake, or some other animal. We have herein, a between lives station operation taking place even before the being has left the body.

What is this all about? One possible clue is the lookingness of many who are in Scientology, and by others. Most of us have heard of the possible tipping of the axis of the earth, that some catastrophies prior to this might occur as early as beginning with 1962. Frankly, my own lookingness bears this out. This is not something to be withheld from your tender ears, as it can be found in many writings.

Last July, while waiting for a friend to finish a phone call, I opened up a Bible for the first time in many years, and it opened to Genesis 6, and I read, as follows: 5. And God saw that the wickedness of man was great in the earth.....12. And God looked upon the earth, and, behold, it was corrupt; for all flesh had corrupted His way upon the earth. 11. The earth also was corrupt before God, and the earth was filled with violence. 13. And God said unto Noah, the end of all flesh is come before me; for the earth is filled with violence thru them; and behold, I will destroy them with the earth.....

What is this corruption? I feel that it is precisely the blackness I referred to that every preclear has found when they tried toatched

terminal and ground, in a populated district. It just splashed like dropping a lead ball into a barrel of asphalt roofing paint. The tube would not stay white. When done out on the desert, most places, the tube stayed white, and the charged mockups grounded deep and exploded well. It seems that many areas on this globe have reached their critical capacity. Something has to give. It is like a condenser holding its maximum charge-- and in our case being rapidly further charged by an ever increasing materialistic populace. All of this is observable thetawise, directly.

It seems to be the consensus of knowingness that the marcabs will congregate in Africa; the celictans in Arizona; the Capracolacoonatans, in Hawaii-- which will rise. (Wonder is that is the way that you do spell Caprac, in Hawaii).

It seems that these areas, among a few others, will be safe-- for a while, at least. It seems that Ron had in mind a Celictan game years ago, when he located in Phoenix--twice. Then something happened. At the first Clicial Course, Nibs, like a bad boy, ran me on future track, like he was not supposed to. I was amazed to find Ron in Africa at the time of the catastrophe.

When will this occur? The dates are not agreed upon, exactly by those who can look. There is a high incidence of agreement that something is expected to be starting as early as 1963. Final date, 1971-5. It does not appear that the worst will come at once. When the earth is looked at, thetawise, it is the heavily populated areas that show up as the blackest. It is these which it seems, will be the first effected. In the main, it is these areas which will be worst effected.

The details? IT IS NOT THE PURPOSE HEREIN TO TELL YOU DATA, BUT TO DIRECT YOUR ATTENTION INTO AREAS OF INVESTIGATION, THAT YOU CAN LOOK AND SEE FOR YOURSELF. I HAVE NO PITCH. THERE IS HEREIN NO ATTEMPT TO INFLUENCE YOU, CONTROL YOU. I AM MERELY SOLICITING YOU TO DO THAT WHICH IS NECESSARY FOR YOU TO DO SO THAT YOU CAN REHABILITATE YOUR ABILITIES TO LOOK, TO KNOW FOR YOURSELF. THAT WHICH MIGHT SEEM EVALUATIVE IS SET DOWN, SOLELY FOR THE PURPOSE OF EMPHASIS, THAT THAT WHICH I PRESENT IS IMPORTANT AND IS CRITICAL. COULD I DO IT OTHERWISE, I WOULD.

I feel certain that what I am doing is precisely co-incident with Ron's original goals, when the theme was in terms of increasing one's own self-determinism, rather than the present one of supine submission to org-determinism.

So, again I plea, again and again: RUN THESE PDHs OFF AND SEE FOR YOURSELF.

There are similarities and differences in both the content of each PDH, and in the individual proclear's ability to contact them. In some cases, after one or two are run off, the rest come increasingly easy. In others, with the recovery of each command, the proclear is bounced, and you have to dig deeper, just like going in after a porcupine quill. Expect anything.

Just as with any other engram, the needle will not drop until the precise words of the command are obtained. If the idea is there, the needle will wiggle, or drop slightly. If the proclear gets the right words, but is out of the incident, like being in present time, the drop will be sluggish. Do not leave it until you get a sharp drop.

After the identity of the PDH is established by sharp drops, run

"agree-disagree" on him as a terminal. Do this again after the preclear has again entered the PDH as effect. We audit only truth. The truth to the preclear is that he is effect in the incident, and we assist him to regain his ability to be cause. If he does not experience being effect in the PDH, it seems, it will never become real enough to him to really contact it well enough to run it out. So, ask him to get the anaton as early as possible in the running of it.

The running of the PDH or, using him as the terminal, with standard processing, is used with success by others. In fact, by far, I understand, more PDHs have been run out this way than by my method. There is no data pool, in fact, practically no one else knows who else is running them. For obvious reasons, this has been kept quiet, otherwise, means might have been found to snip it in the bud.

So, if you want to work with someone on this, just mention this fact to someone you trust, and get going. If you know of no one, let me know. It will probably go thru several hands before an experienced PDH runner contacts you. If you have a practice, will run it out on others, this auditor may do it free. I charge \$7.50 per hour when specifically working on PDHs, as I do not consider it to be ethical to fully profit on this misfortune; and I make no charge, as above when auditing a practicing auditor. It is recommended that after you have a few run off, that you allow a trained auditor you are about to process to run you until he gets reality on these PDHs as being something that really happened, not dub-in. It is further recommended that you have any person about to be audited on PDHs witness sufficient sessions for him to also get such reality before he starts being processed, himself.

REALITY IS NEVER PRESENT IN A PDH AS LONG AS THE PRECLEAR IS STILL RUNNING AS EFFECT. So do not expect it. Again, he MUST go thru this phase of being effect, merely to determine just what happened. Then run him thru to the point that he is willing to be responsible for-- or, better, to use Ron's now magnificent process, is willing to BE anything, anybody-- at any moment-- in the PDH. When this is done, he will have reality, certainty. But do not push him too fast, or he will be just sayin' that he can be, be responsible for.

When he drops out of the incident, find the bouncing phrase EVERY TIME. Put him back into it by return to his sharp drop. Use the law of the last largest object (the last large object he mentioned in the incident) and have him continue from there.

If you do not have the persistence of a beaver, do not try to run out PDHs. Even yesterday, I was stalled by "Get out of here. You will never find this room again." On the command to get back into the incident, hospital rooms, everyother kind of a room came up. It took a couple of hours to get that command phrase. Shortly afterward, the command phrases rattled off faster than the auditor could write them down. Patience. Persistence.

With everybody I know of who has been run on this has come, "I am certain that I have never had a PDH." "There never has been any time that has lapsed, for which I cannot account." "A PDH could not have happened here, because I remember everything that has happened." "This is just imagination." "This never happened." In each case, the person was sitting smack dab in a PDH. The certainty they evince is derived from the certainty of the forgetters given in the PDH. If the person had never been PDHed, they would not be certain whether they had or whether they had not.

There is not a lock which cannot be picked, and there is not a PDH

which cannot be recovered. If the proclear starts homing in at 2.0-2.25, or 4.0-4.25 which action is not a part of his usual pattern, there is a PDH there. Every PDH I know of has started from this pattern, and I have not found this pattern on anyone, as above who did not have one sitting right there.

If the proclear feels himself "stuck" in a specific location, like the bridge over Rock Creek, or, as with myself, over the point where the trolley ducks under Dupont Circle, just north of same-- he has been socked in there by a PDH, most likely. The antidote: mockup this location in several spots about the room, point to one after another and have proclear be the one you pointed at. Have him occasionally be in the fixed scene itself-- until he is totally unfixated. (To clarify: the proclear makes the mockups about the room.)

As a check, right now, if you try to exteriorize, but have difficulty being anywhere but a specific location, as above, you have been "had" on this one. Try it. I have a couple more I know of that I have not run out,

I am certain that any fore knowledge of the nature of commands given will not effect, or suggest those in your PDH, as, if they are not THERE and THEN, the needle will not react. So, as general interest please find samplings of those recovered.

"You will come back to Washington, again, again and again."

"Don't get smart. You can't get away from us."

"You can't remember who we are, anyways, because you have been told someone else did it."

"When you disobey us, you will think your back is broken." (Others recovered this one, but I sure thought my back was broken, or at least needed a spinal adjustment, one time I was auditing PDEs.)

"This is happening in a Mayan Temple in 1800 BC."

"Take over a black body in Africa.. a snake, baboon, etc."

"This is too wierd to happen."

"Don't spill your guts to an auditor."

"Nothing makes sense."

The following was presented by a proclear who was supposed to be "in the know, but was still under drugs at the time that it occurred. The identity of the speaker is known by all of us, is a Washington staff member. It is not a part of a PDH, but was spoken in the presence of the proclear with three others present. It appears that someone just got careless.

"Ron has his hands full straightening out comm lines and holding down any levels and goals... I do not see how he can maintain control and still put his attention on the trouble we can give him... Therefore, anytime we are ready we can take control of this office. He wouldn't dare oppose us, because he cannot afford to lose face in front of the U.S. Gov't. and field auditors everywhere... Well, he probably knows that he can shoulder anything, so he won't be alarmed until it is too late. Let's see how he likes to be a victim of his own trap. He should kill me for this, but I don't think he can. He should have never let me out of hiding, because I don't have these eyes for nothing. I am not some old shoe to be worn and pulled off. I just think I'll pull the foot off with it. Even slaves have some rights. One day we'll all walk in the sun again. It's too late to block us now. We're dug in too deep....."

(Seems to be plots and counter plots. One PDH was given for the purpose of counteracting commands given by the main gang. The proclear, incidently, did not obey the debilitating commands, but has been effected by them... and this well over a year ago, plus.)

"You can't know anything. You can't hear anything. You can't repeat anything that has happened. You can't undo anything that has happened. You are bound up forever."

And in spite of all of this rot, Scientology as a science remains the only hope that there is for the future of mankind. With this, my certainty that this is true is greater than ever. Until now, there has been apparencies which has caused some doubts. People have been making some progress as far as feeling more comfortable is concerned, at least. I know now why true spiritual progress has not been forthcoming. I understand why some cases have gotten plowed under and have stayed that way... these are the ones with potential ability, but are lacking in stability, are easy marks for PDHs.

I would like to see the Ron who gave us Scientology back with us again. It would be naive to imagine that he has not had his-- and worse ones than anyone else has received.

My goal? Only this: I want to see my beloved ones, Tolcos, Celiotans, restored to their potential abilities, so that when things happen, we will have a civilization bonded by spirituality-- not force. They as a group not I will do the organizing... I should say, "we." I am not not-issing the other two games-- but make them good ones. Many of you will go to Africa, anyhow. Good. But do it on your own determinism.

There are many who have left Scientology because they intuitively know much of what I speak of. Send me their names and addresses, so that we can be together again, and they can get the benefits of Scientology, without danger of degradation.
